SAFe® | COURSES

Implementing SAFe®

Achieving business agility with the Scaled Agile Framework®

Learn how to lead a Lean-Agile transformation using the practices and principles of SAFe and the seven core competencies of the Lean Enterprise that enable business agility.

In this four-day course, you'll practice how to coach programs, launch Agile Release Trains (ARTs), create a DevOps culture to build a Continuous Delivery Pipeline, and empower a Lean portfolio. Leading SAFe®, taught during the first two days, gives you the foundation to teach SAFe to leaders. The next two days focus exclusively on what it takes to successfully implement SAFe in your organization. By becoming a change agent and a Certified SAFe® 5 Program Consultant (SPC), you'll gain the knowledge and skills to implement a Lean-Agile SAFe transformation—and guide the enterprise toward success in disruptive, fast-moving markets.

With SAFe® 5 Program Consultant certification

Implementing SAFe®

With SAFe® 5 Program Consultant certification
Based on version 5.0 of SAFe

> *"Changing customer expectations and the tremendous pace of market disruptions require a framework and processes that are quick, scalable, and responsive. The Scaled Agile Framework, with its non-linear approach and adaptability, is the way of the future."*
>
> **SUNDARESAN JAGADEESAN** Program Manager, Philips Electronic India Limited

Who will benefit?

- Professional services consultants
- Internal change agents, Lean-Agile Center for Excellence (LACE) participants, Agile Working Groups
- Business and technology executives, leaders, managers, and directors
- Portfolio managers and fiduciaries, Project/Program Management Office (PMO) personnel
- Development, QA, and IT managers
- Program and project managers
- Product and product line managers
- Process leads and lifecycle governance personnel
- Enterprise, System, and Solution Architects

What you'll learn

To perform the role of a SAFe® Program Consultant (SPC), you should be able to:

- Lead a Lean-Agile Enterprise transformation
- Implement SAFe
- Implement Lean Portfolio Management
- Perform Value Stream identification
- Launch and coach Agile Release Trains
- Coordinate multiple Agile Release Trains with a Solution Train
- Use the seven core competencies to achieve business agility
- Train managers and executives in Leading SAFe®
- Continue your learning journey and become enabled to train other roles in a SAFe Enterprise

Prerequisites

All stakeholders in a Lean-Agile transformation are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe® 5 Program Consultant certification exam and practice as a SAFe® 5 Program Consultant (SPC):

- More than 5 years of experience in software development, testing, business analysis, product, or project management
- More than 3 years of experience in Agile
- One or more relevant Agile certifications

Eligibility to train others in SAFe

As a SAFe® 5 Program Consultant (SPC), you can continue the learning journey by achieving validation to license and teach SAFe courses.
